bcc
Subject Please comment

Tom,

I have reviewed the draft chapters provided to me by SC&A for inclusion into the Technical and Regulatory Support Document to potentially modify Subpart W. I have attached my comments to the draft report as well as general comments and observations. Generally, SC&A answered some of my concerns but not all as was required in the Work Plan. I (b)(5) - Deliberative Process Privilege

I will set up an urgent call with SC&A after I get a response from you and from Reid. If you have any concerns please let me know.
